Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-35, drawn to a method for servicing a request for delivery of an item and a package delivery system, classified in class 705.
- II. Claim 36, drawn to a method for servicing a request for delivery of an item, the method comprising receiving compensation from a merchant and providing compensation to a depot, classified in class 705.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as receiving compensation from a merchant in exchange for a service of holding a package at a depot for customer pickup; and providing compensation to the depot for the service of holding the package at the depot for customer pickup. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

Art Unit: 3625

A telephone call was made to Steven Cahill on 9/9/2004 to request an oral election to the above restriction requirement, but attempts to reach the attorney were unsuccessful and therefore did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Matthew s Gart whose telephone number is 703-305-5355. The examiner can normally be reached on 8:30AM to 5:00PM m-f.
